**There's no better way I could have improved my LSAT score than with Jonathan's tutoring. Through his patience and thorough understanding of the test, he was able to push me beyond my own limits. At times, Jonathan cared even more than I did about me doing well on the LSAT! I moved from getting ten questions wrong per section, to almost perfect scores when approaching the test un-timed, further proving the solid foundation of reasoning skills I learned from Jonathan. I now go to Brooklyn Law School with \$38,000 a year in scholarships.**
