

Ben A.

LSAT Score: 97th Percentile

Despite the many reputable LSAT books, prep courses, and even the copious free advice/lessons you can find on the internet, none can quite match the quality and value of one-on-one tutoring, and I can't imagine there's anyone better at it than Jonathan.

Unlike all the other studying approaches I mentioned (and I've tried them all), Jonathan can not only diagnose your unique test-taking weaknesses, but he can also devise a concrete plan to address those weaknesses and improve your score. The main test prep companies like to teach you shortcuts and other mental tricks that can sometimes diminish your understanding of the underlying material. Jonathan instead emphasizes your comprehension of the fundamentals, which in the long run leads to better test-taking ability.

In addition to the substantive aspects, Jonathan's laid back attitude and disposition make what could otherwise be very stressful tutoring sessions more enjoyable.
