

Kai Zhu

Took Test: December 2013

Score: 171 (98<sup>th</sup> Percentile)

After a rather disappointing LSAT performance - scoring 10 massive points below my practice test average and feeling confused as to what I could do to improve further - I reached out to Jonathan for consultation.

It was a decision that I am glad that I made. Not only did he provide me with guidance on substantive and fundamental issues, but more valuable to me personally was the confidence that his coaching instilled in me. The presence and effect of which on actual testing day, I firmly believe, is reflected and apparent in my received mark.

I recommend Jonathan, from my personal experience, to those who require guidance on specific sections/questions as well as those who might need an extra edge on test day. I attribute my success to my sessions with Jonathan in no small way.
