

I am extremely grateful to have had Jonathan as my LSAT tutor. My main issue with the LSAT was that I had terrible test anxiety and could never properly calm myself down during practice tests. Jonathan is the reason I was finally able to relax. I am thankful that Jonathan took my anxiety seriously and taught me different techniques for how to take the test calmly and confidently – he even gave me a game plan for what to do the morning of the test and what to repeat to myself during the wait period before the test began! Jonathan not only taught me how to mentally take the test, he also genuinely made me understand it. To top it all off, Jonathan was always really honest and realistic with me, which made me trust him as my tutor and kept me working hard. I would recommend him to anyone for both tutoring and help with law school applications!
